We got a name: Bowtie!!

We are very excited to release our first newsletter and share with the community some of our milestones in the first week working of our ETC Semester Project.

Name

We got a name. From now on we are the “Bowtie Team”. Expect some cool branding!

Meeting with Advisors

We had our first official meeting with our Advisor Mike and Shirley. In this first meeting we had our opportunity to share with them our expectations. We are very excited to work with them

Meeting with Client (Garth)

We had our first official meeting with the client. In this meeting with discussed some details of the project and we talked about how the project should be scoped. We also had some time to spent with Herb, , the start of this show.

Core Hours

We defined our Core Hours. Now we have a pretty good idea of how our schedules work and which are the best times for brainstorming, meetings, scrums, etc.

Others

We are still working on our office and hopefully next week we will have some decorations. We are also working on setting up the development environment with the tools provided by the client

*The reasonable man
adapts himself to the
world; the unreasonable
one persists in trying to
adapt the world to
himself. Therefore all
progress depends on the
unreasonable man.*
