

BOWTIE NEWSLETTER WEEK 3

In this issue:

- Science Center
- Branding
- Meeting with Sam
- Meeting with John
- Mockups
- Visit to Lab

Science Center!!

This week went to the Carnegie Science Center to visit one of their Robots which has a very interesting user interface to do puppetry and create live performances. We took photos and notes and we got pretty good insights about how this kind of robot works.

Branding

We continued with our branding process and we already decided what kind of style we are using for our logo and other visual applications.

*"It is the essence of
genius to make use of
the simplest ideas." -*

Charles Peguy

Meeting with Sam

We had a meeting with Sam French who is going to be the director of the performance. We got some valuable insights on his directing style as well as a better understanding of his schedule,

Meeting with John

We had meeting with John Dessler. He gave us very good advice on how he envision the projects and from his perspective how we should approach the challenges of this projects.

Mockups UI

Base on what we saw in the Science Center, Simon did a first version of a potential UI.

Visit Lab

At the end of the week we did a visit to the lab. There we had a small workshop on Blender as well as an informal meeting with Garth to solve doubts.
