Week 1:

Hi! This is KiTES!! In our first week, seven of us gathered to form up a new team. We identified our roles to find out that we are a well-balanced team.

Brian Kang - Producer, Sound
Mohan Subramanian - Lead Game Designer
Heem Patel - Programmer, Associate Producer
Tushar Arora - Programmer
Shine Li - Programmer
Tia Li - Artist
Rik Chuang - Artist

We researched the post-mortem of the previous team to learn from the past and together set our project goal for this semester.

We also had an introductory skype call with great clients, Elizabeth Forward School District along with Scott Stevens and John Dessler to discuss with them regarding the possible products and deliverables.
