# Em Tyminski
## Concept Artist

## Work Experience:

### 2D Game Artist
Decimal Point | January 2023-Present
Creating 2D character art assets such as headshots, full body poses, and simple 2D animations along with some prop assets and background assets. Attend weekly stand up meetings.

### Concept Artist/UI Artist
ETC Faculty Studio | May-August 2021, May-August 2022
Iterated and created conceptual environment art, UI assets, and props for a research project. Attended weekly stand up meetings and collaborated with both the Art Team and Design Team.

## Project Experience:

### Concept Artist
Genscape | August-December 2022
Generated environment, prop, and character concepts for a VR pitch project centered around crafting an emotional journey using only visual storytelling set in a lucid dream.

### 2D Game Artist
Games for Change | January-May 2022
Created 2D art and UI assets for a game experience centered on the topic of eco-friendly fashion and sustainability for the Games for Change Festival 2022.

### Character/Environment Concept Designer
Pepperbox Productions | January-May 2021
Created and developed 2D concept art as well as final model sheets for a pre-production pitch package as well as managed deadlines for assets.

### Art Director/2D Game Artist
Explore August Wilson's Hill District | August-December 2020
Created final 2D art assets of backgrounds, characters, and interactive props for an app for the client August Wilson House. Led the general art direction of the app, approved all artistic decisions, and led another 2D artist.
