

# Skyline Newsletter - Week 2

In our second week, we split up specific tasks depending on the team member's roles. Also, Chong and Megan started to design our poster, team photo and logo design.

From the story side, the faculty chose the "Graeco Roman Mythology" from four pitch stories. Nafisa began to polish the story and dig out more details from the original one.

## Tasks

What we have done:

- Pitch four stories to our advisers.
- Choose the greek mythology as the final animation story.
- Find out the interest curve about the story we chose.
- Story construct
- Design for Logo

Problems we encountered:

- Hard to end the animation with the original mythology structure.
- Some tasks are moving slowly on the scrum board.

The goal for the next week:

- Finish the script for story.
- Define the method we will use to tell the story
- Discuss the main art style for the animation.
