

# Skyline Newsletter - Week8

## What we have done:

- Tested! Conducted a batch of testing to help determine the direction of the animatic.
- Determined if the emotions made sense and what we need to do to move forward
- refined the story board
- created a plan for halves

## Problems we encountered:

- People had a hard time understanding the pots
- People had a hard time understanding who the main character was
- Process still needs refinement,
- We're not sure we'll finish a new colored animatic for halves

## The goal for the next week:

- Figure out schedule
- Iterate the Animatic
- Discuss new pipeline techniques
- Practice for Halves
