

Kayi Ng

Concept Artist with a keen focus on art design and illustrations in fantasy. In addition to traditional and digital painting, proficient in major 3D modeling software such as Maya, Fusion 360, and Cinema 4D.

• Education

Master of Entertainment Technology
Carnegie Mellon University,
Expected May 2023

Bachelor of Fine Arts
Maryland Institute College of Art,
August 2017 - May 2021

• Projects

Nosquito

September 2021

Artist

An augmented reality game featuring players using their hands to pitch mosquitoes to prevent bites on character's face before photo shot.

- Communicated concepts and ideas to the team.
- Used various art techniques such as 2D painting and 3D modeling to effectively convey ideas and stories.

"One More Day"

October 2021

Artist

"One More Day" is a virtual reality game based on the Chernobyl disaster. Players need to collect things to unlock the whole story.

- Responsible for most of the environment modeling and all the cut scene illustrations.

Egg War

November 2021

Artist

Egg war is a 2D game that can take 2-4 players using Vive trackers and 3dRudder. Two players will be the chicken and trying to steal each other's eggs. Two guests can be the cloud or the little man interrupting the chicken during the game.

- Responsible for all the environment designs and character designs.
- Responded to feedback and made changes in a timely manner.

• Employment History

Gallery Assistant at NothingHappened Gallery, Shenzhen

March 2021 – August 2021

- Educated visitors about gallery works in the Alibaba Design week 2021.
- Developed thoughtful exhibition plans in congruence with the gallery mission and theme, such as rendering the final effect of the layout for the exhibition organizers to see.
- Worked to promote the gallery via social media platforms and community outreach platforms, such as managing Gallery Instagram
